

Bicester Health Centre - PRACTICE FEES FOR NON-NHS SERVICES NOV 2025

What is covered by the NHS and what is not?

The Government’s contract with GPs covers medical services to NHS patients, including the provision of ongoing medical treatment. In recent years, however, more and more organisations have been involving doctors in a whole range of non-medical work. Sometimes the only reason that GPs are asked is because they are in a position of trust in the community, or because an insurance company or employer wants to ensure that information provided to them is true and accurate.

Examples of non-NHS services for which GPs can charge their own NHS patients are:

- accident/sickness certificates for insurance purposes
- school fee and holiday insurance certificates
- reports for health clubs to certify that patients are fit to exercise

Examples of non-NHS services for which GPs can charge other institutions are:

- life assurance and income protection reports for insurance companies
- reports for the Department for Work and Pensions (DWP) in connection with disability living allowance and attendance allowance
- medical reports for local authorities in connection with adoption and fostering
